

Live for 5

April 21, 10h30

Meet the cohort

Golf Guru's mission is to create happier, healthier-minded golfers who leave the game better than they found it. They are a non-linear, forward-thinking organisation, from the content they make to the tech they use.

Above all of that, Golf Guru is all about 'feel-good golf'. Golf Guru focuses on gratitude, openness, inclusion, and mental well-being at the conversation's forefront. They're creating a community that thinks, feels and plays better golf.

There is unprecedented consumer demand for privacy as people strive to support their sexual & relationship wellness.

pleazeme enables people to anonymously interact with sexual wellness content to make better-informed decisions about relationships that fit their personal preferences.

pleazeme covers everything from access to sexual wellness experts to product innovations, learning, exploration and entertainment. With over 442 businesses & non-profits across the world already benefiting from the freemium platform, pleazeme is moving rapidly to establish itself as the social media answer for businesses across the sexual wellness & pleasure industry.

vTail is a clinician-friendly digital communications app enabling easy, instant, HIPAA-compliant communications with medical products companies.

Twenty corporate customers in the USA focused on Wound Care are on a 6-month free trial, potentially resulting in £2,000,000 ARR by the end of the year.

Trackd is an 8 Track social recording studio on your phone, enabling Artists to record, collaborate and make money from their fans around the world.

The same way Patreon has opened up the market for other direct to fan engagement niches, Trackd through our unique Chipln® technology is giving Artists the revenue they deserve and fans the music they need to hear.

Emoquo is a unique emotional intelligence platform, delivering digital coaching and people analytics for organisations that wish to increase their people's engagement and performance.

Pilots are underway with NHS and Scottish Education and a live solution is active for 2,000 people across eight clients, including Nestle, RCP, Atran and Alliance Medica. emoquo has won an award as the Best Preventative Mental Health.

The post-pandemic 'new retail norm' will be based on accommodating a lifestyle accelerated by COVID-19.

Research shows that business owners and operators of 'Bricks & Mortar' retail and hospitality outlets, with the highest degree of touchless automation in-store, will enjoy a clear competitive advantage.

With 53% of global transactions at Point of Sale being contactless within the next five years, the already operational toodle multi-dimensional App & platform ensures merchants benefit from reduced costs and enhanced experiences.

Just Fix takes the stress and anxiety out of finding reliable tradespeople when you need them urgently – fixing home maintenance emergencies immediately.

Its online platform connects homeowners, tenants, and landlords to trusted tradespeople available in their area, in real-time.
